FULL STACK SOFTWARE ENGINEER

Highly adept at increasing productivity, resolving complex problems, and implementing process improvements. Proven track record of learning new technologies and success in diverse aspects of project and organizational support. As a lifelong learner, I'm always seeking out new challenges and opportunities to grow. Whether it's mastering a new programming language or exploring a new technology, I'm eager to take on new challenges and push myself to be the best software engineer I can be.

SKILLS

JAVA	React	MySQL
JavaScript	Angular	MongoDB
TypeScript	HTML\CSS\Tailwind	Adobe Suite

RECENT EXPERIENCE

LaunchCode

Incoming Teaching Assistant

Student, Web and Software Development Bootcamp

Expected Starting Date: July 2023

April 2022 - February 2023

PROJECT EXPERIENCE

Product Pal\Dream-Z

- Implemented JavaMail API to provide user authentication as well as an automated password retrieval and reset function
- Built the capability to create backend data and strengthened communication between front and backend
- Developed rebrand with new responsive UI that utilizes multiple language analyzing APIs

Bob Reuter Photography Archive

- Built and automated a searchable collection of over 500 photographs with a keyword grouping feature
- Designed and executed a full UI\UX user experience to create a card-base interface
- Incorporated pagination and database retrieval requests to minimize loading time

WORK EXPERIENCE

Justine Petersen

Compliance Associate

October 2020 - July 2021

- Developed a calculator & intake spreadsheet in Excel that increased loan processing efficiency and speed
- Maintained multiple simultaneous data entry and organization projects
- Created, digitized and process documents for hundreds of SBA loans in distressed communities

CIC Coworking

Client Support Manager

April 2018 - August 2020

- Built a multi-site daily space usage calculator in Excel
- Developed Excel Macro algorithms to increase spreadsheet efficiency and automate calculations
- Executed project management functions for new and outstanding projects and ensured project completion, which increased occupancy and space usage by 10%
- Led community service and outreach initiatives

Big Muddy Records

Founder & CEO

May 2004 - April 2018

- Enhanced proficiency in audio technologies as well as graphic and web tools including Adobe Suite and WordPress
- Built financial forecasting models in Excel as well as dynamic royalty calculators for digital streaming
- Grew audience by 200% while building a catalog totaling 40 albums, 500+ songs, and 1M+ total streams on Spotify
- Raised \$15K to reproduce the art of Bob Reuter, a deceased artist from the Saint Louis community
